About Why Become Donor Become a Donar Search Blood Request Blood

The most common blood type is O, followed by type A. Type O individuals are often called "universal donors" since their blood can be transfused into persons with any blood type. Those with type AB blood are called "universal recipients" because they can receive blood of any type.

- Voice command for physically disabled person.*

Salient features of our web app

- Gps enabled blood bank tracking
- Cool graphics user interface
- Easy controls for admin
- No data lags
- Speech recognize features*
- Map hovers for finding blood banks in your state
- And many more

Conclusion

- Blood donation is one of the most significant contribution that a person can make towards the society
- In a country of 102 crore if each would donate blood by sparing just 15 minutes once in 3 months, it would make a very big difference to the nation. India will turn into a "100% BLOOD DONATED COUNTRY"
- Blood can be stored for a limited period of time that is why the blood banks need a steady and constant collection.
- . So we must come forward to donate blood as it can make sure the return of a dying man again into the light of life.
